**Choose Design Part A**  
**Hoop water**  
**soluble stabilizer**  
**stitch first color.**

**Turn hoop over  
lay wrong side  
of the bottom fabric  
on the stabilizer  
and tape in place.**

**Turn hoop back  
layer batting and  
fabric on top.  
Stitch next color to  
Tie down fabric layers.**

**Remove hoop from machine  
cut away excess fabric  
and batting as close  
to the stitches as possible without  
cutting through stitches or stabilizer.  
Do the same for the back.  
Replace hoop**

**Stitch remaining colors  
Stop before last color  
change to match bobbin  
with the top thread  
for the satin stitch edge.**

**Finish sewing Part A**  
**Remove from hoop**  
**Carefully remove excess stabilizer.**  
**Pulls easily from the satin stitches**  
**may need to cut around**  
**the face.**

**Choose Design Part B**  
**Hoop water**  
**soluble stabilizer**  
**sandwich stabilizer with**  
**bottom, top fabric and**  
**batting continue the same**  
**as the Part A**

**When quilting is finished**  
**Stop at placement**  
**line stitching**  
**front of face.**  
**Place part A lining**  
**up facial features and edges**  
**tape in place**

**Hint: you can wet the WSS**  
**slightly then stick**  
**part A to the WSS**  
**in the hoop!**

**There will be  
a tack down stitch.  
Make any adjustments  
as needed.**

**Stop here  
change bobbin match  
top thread for  
satin stitch finish.**

**Remove excess stabilizer**

**It is Finished**
